Melissa

We have collaborated on joint release between San Juan Basin Health and the Colorado Department of Public Health and Environment. Here is it.

We do plan to send out this afternoon. You were not around with JIC and I wanted to get this to you as a heads up.

It breaks no new news but repeats info from earlier today.

And I overhear one of your folks talking about an EPA release for later today.

Thanks.

Mark Salley
Communications Director
CDPHE
